

TENDER NOTICE

REQUEST FOR PROPOSALS.

Wageningen UR Uganda in collaboration with the National Agricultural Research Organisation (NARO) for public varieties and food crops and private sector for vegetable seeds is implementing the Integrated Seed Sector Development (ISSD) Plus programme. ISSD Plus is a 4-year project coordinated by Wageningen Centre for Development Innovation (WCIDI) and funded by the Embassy of the Kingdom of the Netherlands in Kampala. The programme aims to strengthen the development of a vibrant, pluralistic and market-oriented seed sector that is able to address key challenges that hamper the seed sector development in Uganda. ISSD Plus has four components: a) promotion of uptake of quality seed; b) enhancing the Quality Declared Seed system through supporting Local Seed Businesses; c) addressing bottlenecks in early generation seed (EGS) and creating an enabling environment for the seed sector; and d) promoting the use of advanced vegetable varieties.

Seed for Seeds (S4S) Uganda Ltd is a subsidiary company limited by guarantee, independent of NARO Holdings Ltd (NHL), its mother company. It aims to bridge the existing gap in basic seed production and supply for the marginally profitable crops and varieties. It is envisaged that S4S (U) Ltd will enhance the capacity of NARO to meet its obligation in availing quality basic seed to seed companies and other seed entrepreneurs such as Local Seed Businesses (LSBs).
